

Concept Map: Chapter 1

Dr. Kyle Horne

ME-3640 – Heat Transfer

2026-Spring

1 Instructions

1. Navigate to the web application draw.io: <https://app.diagrams.net/>.
2. Open the provided vector graphics drawing (.xml file) in this application.
3. Use what you learned from the chapter summary to connect the provided concept terms.
4. Label connections with their meaning, and add additional terms as needed.
5. Export your final concept map as a portable document (.pdf file).
6. Submit this file to the 🎓 Canvas assignment.

A Rubrics

Submissions of this assignment will be graded upon the criteria found in this section. Review these carefully, and complete your work so that application of this rubric produces your desired score.

🌟 Criterion 1 Effort

Concept map is constructed with appropriate effort, neatness, etc.

Points	Description
--------	-------------

- | | |
|----|--|
| 20 | Honest effort to participate and learn: all provided terms are meaningfully connected |
| 10 | Rushed or haphazard work: one or more provided terms are poorly connected or one term is not connected |
| 0 | Work is absent, wholly incorrect, or plagiarized. |
